BOND RESOURCES INC.
NOTES TO THE FINANCIAL STATEMENTS
(Stated in Canadian Dollars)
(Unaudited)

Note 1 **Corporate Information**

Bond Resources Inc. (the “Company”) was incorporated on January 22, 2007 under the *Business Corporations Act* of British Columbia as J. Bond Capital Corporation. It did not commence operations until August 15, 2017. The Company changed its legal name to Bond Resources Inc. on November 16, 2018. The Company is a private company with plans to list on the CSE (see Note 4 – Share Capital and Equity Reserve). The Company is an exploration-stage company holding a 100% interest in one mineral property in British Columbia, Canada.

The address of the Company’s corporate office and principal place of business is 750 – 580 Hornby Street, Vancouver, British Columbia, Canada.

Note 2 **Basis of Preparation**

a) Statement of Compliance

These unaudited condensed interim financial statements for the Company have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”). These unaudited condensed interim financial statements, for the nine months period ended March 31, 2019, have been prepared in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting, and do not include all the information required for full annual financial statement.

These condensed interim financial statements should be read in conjunction with the Company’s June 30, 2018 audited annual financial statements.

b) Basis of Measurement

The financial statements have been prepared on a historical cost basis, except certain financial instruments, which are measured at fair value, as explained in the Company’s accounting policies discussed in note 3 of the Company’s June 30, 2018 audited annual financial statements.

The financial statements are presented in Canadian dollars, which is also the parent company’s functional currency, and all values are rounded to the nearest thousand dollars, unless otherwise indicated.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company’s accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 4 of the Company’s June 30, 2018 audited annual financial statements.

(Stated in Canadian Dollars) - Page 2

Note 2 Basis of Preparation – (cont'd)c) Going Concern of Operations

The Company has not generated revenue from operations. The Company incurred a loss of \$112,627 during the nine months ended March 31, 2019. These conditions indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. The Company has sufficient cash resources to meet its obligations for at least twelve months from the end of the reporting year. While the Company has been successful in obtaining the necessary financing through the issuance of common shares in the past, there is no assurance it will be able to raise funds in this manner in the future. As at March 31, 2019, the Company had \$54,232 in cash, working capital of \$45,017 and no long-term debt.

As the Company's mineral properties are in the exploration stage, the recoverability of the costs incurred to date on its exploration properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties and upon future profitable production or proceeds from the disposition of the properties and deferred exploration expenditures.

These financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of operations, and at amounts different from those in the accompanying financial statements.

Note 3 Exploration and Evaluation Assets

Exploration costs:	Aspen Project
Balance, June 30, 2017	\$ -
Geological costs	66,338
Claim maintenance, permits and taxes	3,000

Note 3 Exploration and Evaluation Assets – (cont'd)

The Aspen claim block is a 1,292 hectare, early stage, prospective mineral exploration property located on the Nechako Plateau near the geographic centre of British Columbia, approximately 162 kilometres west-southwest of Prince George. The Aspen property was acquired by staking.

Note 4 Share Capital and Equity Reserve*Common Shares*

The Company is authorized to issue an unlimited number of no par value common shares, issuable in series. The holders of common shares are entitled to one vote per share at meetings of the Company and to receive dividends, which maybe declared from time-to-time. To date, equity financings have provided the main source of financing.

No dividends have been declared by the Company since its inception. All shares are ranked equally with regard to the Company's residual net assets.

Issuances for Cash

On August 15, 2017, the Company completed a private placement, for proceeds of \$8,000 through the issuance of 800,000 shares at a price of \$0.01 per share. The Company also completed a private placement on October 5, 2017, issuing 1,300,000 shares at a price of \$0.05 per share for proceeds of \$65,000. One additional private placement with two closings took place on January 19, 2018, and May 1, 2018 for aggregate proceeds of \$130,000 through the issuance of 1,300,000 shares at \$0.10 per Unit.

During the current period ending December 31, 2018, the Company completed a private placement, for proceeds of \$105,000 through the issuance of 700,000 shares at a price of \$0.15 per Unit. The Company incurred share issue costs of \$17,665 for this placement and issued 56,000 agents warrants exercisable at a price of \$0.15 to August 28, 2020. Total fair value of the agent warrants is \$4,500.

Issue date	Expected option life (years)	Risk free interest rate	Dividend yield	Expected volatility	Expected forfeiture rate	Weighted average fair value
August 28, 2018	2.00	2.14%	0.00%	100%*	0.00%	\$0.08

* Volatility was determined using the historical volatility rate of comparable companies.

Note 5 Related Party Transactions

The following is a summary of charges incurred by the Company with related parties for the period ended March 31, 2019 and 2018:

Period ended March 31,	2019		2018	
Accounting fees	\$	4,500	\$	-
Legal and corporate services		33,488		3,563
Office, rent and administration		9,000		-
Total	\$	46,988	\$	3,563

During the period ended March 31, 2019, the Company incurred operational expenses totalling \$46,988 from companies controlled by directors and officers of the Company. Included in accounts payable at March 31, 2019 is \$4,725 owed to the related company. (June 30, 2018: \$nil).

Note 6 Loss Per Share

The denominator for the calculation of loss per share, being the weighted average number of common shares for the period ended March 31, 2019 and 2018 is calculated as follows:

	Three months ended		Nine months ended	
	March 31,		March 31,	
	2019	2018	2019	2018
Issued and outstanding, beginning of the period	4,100,000	2,100,000	3,400,000	-
Weighted average shares issued during the period	-	942,115	549,270	2,189,630
Basic and diluted weighted average number of shares	4,100,000	3,042,115	3,949,270	2,189,630

Note 7 Capital Management

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders.

The Company considers the items included in shareholders' equity as capital. The Company manages the capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares through private placements, sell assets to reduce debt or return capital to shareholders. The Company is not subject to externally imposed capital requirements.

BOND RESOURCES INC.

Notes to the Financial Statements

March 31, 2019

(Stated in Canadian Dollars) - Page 5

Note 8 Financial Instruments

As at March 31, 2019, the Company's financial instruments consist of cash and trade and other payables.

The fair value of the Company's cash and trade and other payables approximate their carrying value, which is the amount on the statements of financial position, due to their short-term maturities or ability of prompt liquidation.

a) Interest Rate Risk

The Company's cash earns interest at a variable interest rate. Because of the nature of these financial instruments, fluctuations in market rates do not have a significant impact on estimated fair values as of March 31, 2019. Future cash flows from interest income on cash will be affected by interest rate fluctuations. Interest rate risk consists of two components:

- (i) To the extent that payments made or received on the Company's monetary assets and liabilities are affected by changes in the prevailing market interest rates, the Company is exposed to interest rate cash flow risk.
- (ii) To the extent that changes in prevailing market interest rates differ from the interest rates in the Company's monetary assets and liabilities, the Company is exposed to interest rate price risk.

The Company's exposure to interest rate fluctuations is minimal.

b) Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company is exposed to credit risk with respect to its cash, the balance of which at March 31, 2019 is \$54,232. As at that date, cash was held at a chartered Canadian financial institution and the Company does not consider the risks to be significant.

c) Liquidity Risk

Liquidity risk arises from the excess of financial obligations over available financial assets due at any point in time. Additional cash requirements could be met with the issuance of additional share capital; however there is no assurance the Company will be able to raise funds in this manner in the future. As at March 31, 2019, the Company was holding cash of \$54,232 and trade and other payables of \$45,013.

BOND RESOURCES INC.

Notes to the Financial Statements

March 31, 2019

(Stated in Canadian Dollars) - Page 6

Note 9 Subsequent Event

On May 1, 2019, the Company completed its initial public offering (“IPO”) of 1,750,000 common shares at a price of \$0.20 per share, for aggregate gross proceeds of \$350,000. The Company’s shares have been approved for listing on the Canadian Securities Exchange (the “CSE”), and the Company’s shares commenced trading on the CSE on May 2, 2019 under the trading symbol “BJB”.

The net proceeds of the IPO will be used primarily to fund the exploration expenditures on the Company’s Aspen property situated in the Nechako Plateau in British Columbia, and for general working capital requirements.

As a result of the closing of the IPO, the Company now has 5,850,000 common shares issued and outstanding, of which 2,802,500 Shares are subject to a three-year escrow restriction to be released as to 10% on May 2, 2019, with an additional 15% released every six months thereafter over a 36-month period. An aggregate of 140,000 agents’ options were granted on closing, each entitling the holder to acquire one common share of the Company at \$0.20 for two years to May 2, 2021.
