Bond Resources' Mining Permit & Reclamation Plan Approved for the Mary K Mine

Vancouver, British Columbia – Bond Resources Inc. (CSE: BJB) (FSE: 5B1) (the “Company” or “Bond”) is pleased to announce that a mining permit has been approved by the Idaho Environmental Department, clearing the way for underground mining operations and exploration drilling to proceed at the Company’s Mary K Mine.

Also, the Resource Protection & Assistance Bureau of Idaho has approved the Company’s Reclamation Plan for the Mary K Mine. The Reclamation Plan requires Best Management practices to design the site for minimum erosion and pollution, and strict maintenance of State water quality standards.

In addition to the mining permit, a temporary permit was subsequently issued to withdraw water from a nearby stream – water that will be used for exploration drilling and establishment of the portal on the 400 foot level. (*For further details of the Company’s drilling program, see news release dated June 17, 2020.*)

An initial reclamation bond in the amount of US\$26,770 is required prior to conducting any surface mining operations.

About Bond Resources: Bond Resources is a mineral resource company that holds the contractual rights to acquire the Mary K mine in the Elk City mining district of Idaho. The Company will focus on near-term production and rediscovery at the high-grade historic mine. Led by industry veterans and located in the mining friendly jurisdiction of Idaho, USA, Bond Resources combines the technical expertise of industry experts and a transparent communications model to increase shareholder value.

ON BEHALF OF THE BOARD

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION: This news release may include certain “forward-looking statements” under applicable Canadian securities legislation. Forward-looking statements include, but are not limited to, statements with respect to: future work to be carried on the Property; use of funds; and the business and operations of Bond. Forward-looking statements are necessarily based upon several estimates and assumptions that, while considered reasonable, are subject to known and unknown risks, uncertainties, and other factors which may cause the actual results and future events to differ materially from those expressed or implied by such forward-looking statements. There is no assurance any of the forward-looking statements will be completed as described herein, or at all. Such factors include, but are not limited to: general business, economic, competitive, political and social uncertainties; operating and technical difficulties in connection with mineral exploration and development activities, lack of investor interest in financing; requirements for additional capital; future prices of gold and precious metals; changes in general economic conditions; accidents, delays or the failure to receive board, shareholder or regulatory approvals, including the required permits; results of current exploration and testing; changes in laws, regulations and policies affecting mining operations; and title disputes. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward looking statements. Bond Resources disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
