

Why Invest?

Strategic Management

The right mix of capital markets, mining, communications and legal experience to drive shareholder value

High Grade Past Producer

Confirmed high grade gold historic workings with additional discovery of new gold bearing vein (press release October 22, 2020)

Prime Jurisdiction

Idaho is ranked #8 most attractive mining district in the world

Highlights of Phase 1 Exploration Drill Program 2020

Drill Hole	From	To	Interval		Gold		Silver	
	Ft	Ft	Ft	M	OPT	G/T	OPT	G/T
MK1	441	412	1	0.30	-	-	8.93	306.2
MK6	99	100	1	0.30	0.142	4.87	-	-
MK8	122	123	1	0.30	0.118	4.05	-	-
MK10	167	174	7	2.13	0.165	5.66	-	-
including	172	174	2	0.61	0.514	17.62	-	-
MK9	53.5	56.5	3	0.91	0.192	6.58	-	-
including	54.5	55.5	1	0.30	0.577	19.78	-	-

Results confirmed the continuity of the Mary K vein and its host structure over a strike length of 230 ft., (70 metres), and to vertical extent of 255 ft., (77 metres) with a true width of 15 to 17 ft in true width, (4.6 to 5.2 metres). A second gold bearing vein (hole MK9) was also discovered. * (see press release October 22, 2020)

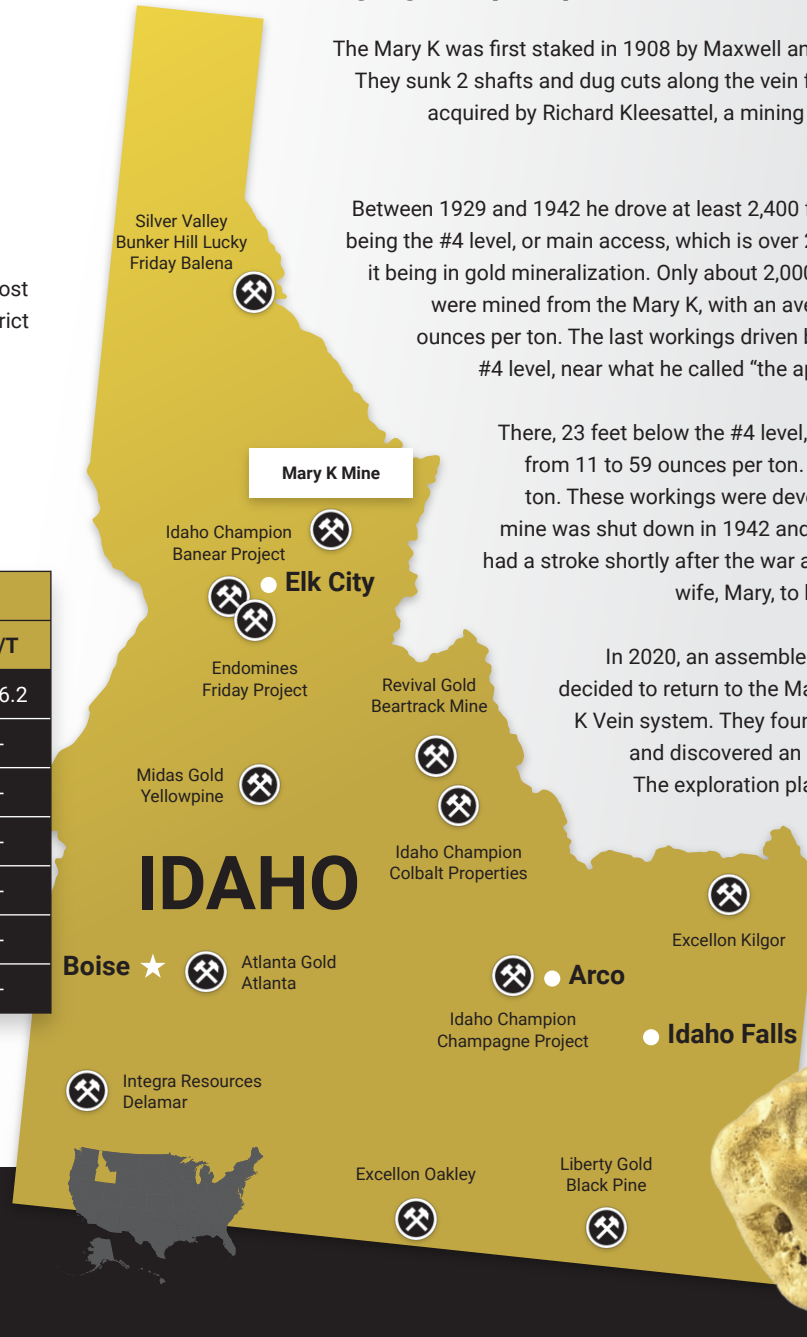

A high-grade past producer left untouched since 1942

The Mary K was first staked in 1908 by Maxwell and Williams in Elk City, Idaho. They sunk 2 shafts and dug cuts along the vein for 3,000 feet. In 1915 it was acquired by Richard Kleesattel, a mining engineer, who expanded the underground workings.

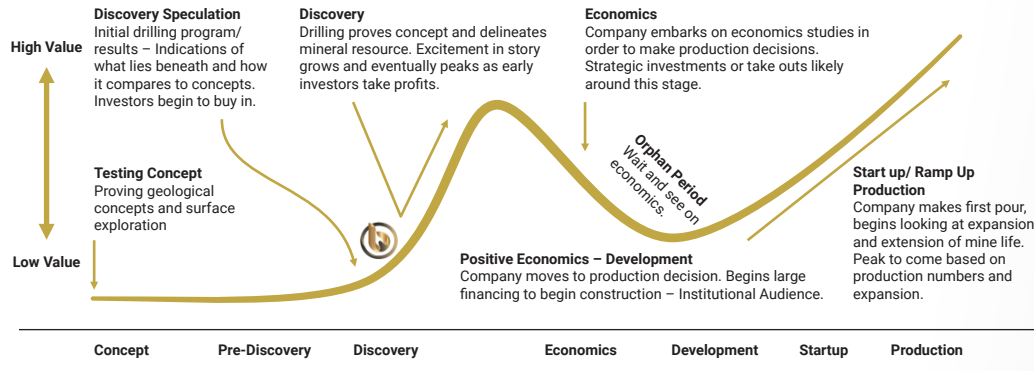

Between 1929 and 1942 he drove at least 2,400 feet of workings, the longest being the #4 level, or main access, which is over 2,000 feet long, 1,100 feet of it being in gold mineralization. Only about 2,000 tons of gold mineralization were mined from the Mary K, with an average reported grade of 0.65 ounces per ton. The last workings driven by Kleesattel were below the #4 level, near what he called "the apex of a very rich ore shoot".

There, 23 feet below the #4 level, he recorded assays ranging from 11 to 59 ounces per ton. Repeat, 11 to 59 ounces per ton. These workings were developed but never mined. The mine was shut down in 1942 and never re-opened. Kleesattel had a stroke shortly after the war and passed away, leaving his wife, Mary, to hold the land until her death.

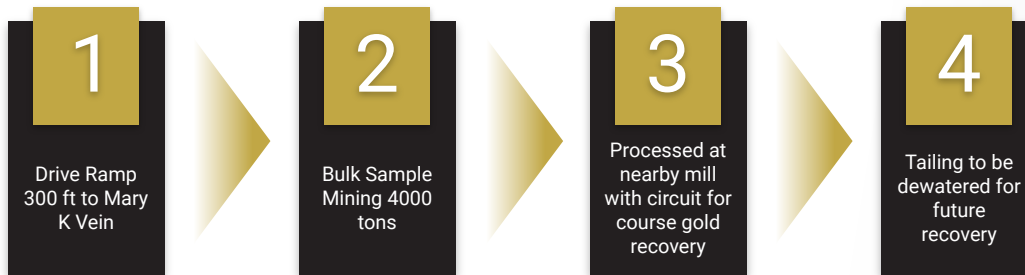

In 2020, an assembled team of mining executives decided to return to the Mary K Mine and test the Mary K Vein system. They found high grade gold in 4 holes and discovered an additional gold bearing vein. The exploration plan in 2021 aims bulk sample mining at the #4 level in addition to updating the mill to recover course gold found in the initial work program.

Bond Resources Management Team

Joseph A. Carrabba
CEO, PRESIDENT AND DIRECTOR

Joe retired from the board of Newmont in 2019 after spending a decade as the Chair of the Safety and Sustainability committee. Prior to Newmont, Joe was President and CEO of Cliffs Natural Resources. Before Cliffs, Joe spent over 20 years at Rio Tinto in a variety of leadership capacities including the commissioning of the Diavik Diamond Mine.

Joe presently sits as a Director of Aecon Group Inc., a TSX listed company with a market capitalization of almost \$900 million. He is also a Director of TimkenSteel (NYSE) and CEO of Teras Resources. Joe holds a BA in Geology from Capital University in Ohio, and an MBA from Frostburg State University in Maryland.

Gary Arca, CA CPA - CFO

Mr. Arca has extensive experience dealing with public companies and currently serves as the CFO of Starcore International Mines Ltd.

Hon. Scott Brison, MBA - DIRECTOR

The Honourable Scott Brison joined BMO as Vice-Chair, Investment & Corporate Banking in 2019. As an elected Member of Parliament, Mr. Brison served the constituency of Kings-Hants (Nova Scotia) who elected him to Canada's House of Commons seven consecutive times over 21 years.

Robert Eadie - DIRECTOR

Mr. Eadie is currently President, CEO and a director of Starcore International Mines Ltd., a company listed on the Toronto Stock Exchange, since October 2003. Mr. Eadie is also a director and officer of several publicly traded companies listed on the Venture Exchange and the CSE.

Valéry Zamuner, MBA - DIRECTOR

Ms. Zamuner holds a Bachelor of Law degree from Laval University and an MBA from the John Molson School of Business (Concordia University). A member of the Quebec Bar, Ms. Zamuner has more than 20 years of experience in international and domestic mergers and acquisitions for public and private companies.

Robert Gordon Power, LL.B - DIRECTOR

Mr. Robert Gordon Power, LL.B, is an internationally ranked and former practicing lawyer. He is the CEO of Privateer Gold Ltd, a gold exploration company in B.C. and has extensive experience serving on board positions with TSX-V listed companies.
